## centrifuge model **CM**

... for routine centrifuging

Designed for the moderate budget, the Model CM is a heavy-duty Centrifuge for all ordinary applications where very high speeds are not essential. It is an unusually versatile unit with interchangeable analytical heads for spinning tubes and bottles in the angle and horizontal positions and basket style heads for filtration and clarification.

### **EMPHASIS ON FUNCTIONAL EFFICIENCY**

All operating units are completely enclosed in a handsomely modern functional cabinet of two piece construction, which incorporates shelves for extra heads and features International's new "Stor-a-Door" for storing shields and trunnion rings. Controls are easily accessible and indicators are on eye-level angle for utmost efficiency.
